**Important notes:**

- All papers which written based on conference scientific topics, will be published.

- Submission of a paper will be held to imply that it contains original unpublished work and has not been presented in other conferences.

- The acceptance of the abstract does not imply the acceptance of the full paper, since it has only been evaluated by the relevance and novelty of the subject.

- Submitted papers can not be reclaimed.

- After the paper has been accepted the author can not withdraw.

- Papers will be evaluated by the scientific-expert committee according to their subjects.

- The conference secretariat will only contact the presenter.

- Only presenters whom their paper has been accepted will be invited to the conference. Other authors will have discounts on registration fees.

- For any further information and in order to have access to other forms or instructions, please visit our site or contact the conference secretariat.

- Papers which are from student’s thesis, if containing the professor’s name, must also contain his approval.
